SUMMARY

I'm a Front-end developer mainly learn by myself with Javascript Programming Language in Web development. Having more than 3 years of experience in poor Javascript, HTML, and CSS in Modern Frond-end Web Development. And nearly a year of experience in Javascript's library as ReactJS and NextJS Framework.

With knowledge of UI/UX design by Figma, and AdobeXD, solving frond-end web problems ability, and creating the better user experience for users. I also put out all the stops on reading and learning new technologies to become a better developer

TECHNICAL SKILLS

Programing languages: Javascript & Typescript
Frameworks/Flatforms:
- ReactJS/NextJS, NodeJS/Express
- Webpack/Babel, CSS Module
- Jquery, Bootstrap, NoSQL, GraphQL, and Web APIs

Database Management System: MongoDB/Mongoose ODM
Foreign language: English (Target TOIEC - 800)
Others
- Good understanding of OPP methodologies, DS&A, and Design Patterns
- Enjoy with Self-study Ability, and UI Creating
- Did solving problems with Cloud Computing Platforms: Vercel, Heroku, and Google Firebase Flatform

PERSONAL EXPERIENCES

Homer & Greek (India) - Front-end Developer   *14.Dec - 21.Dec(2022)*
Project: Courses page selling (2 members, 1 front-end, 1 mentor)
- **Description:** A Web app UI that use to be trained for new employees that created to sell learning courses for personal
- **Technologies:**
  - Original languages for Front-end project: Javascript, HTML, and CSS
  - Original Webpack and Library: Babel plugin module resolver, ReactJS
- **Responsibilities:**
  - Evaluating and initialing a front-end technologies, converting the UI design decisions
  - Setting up and resolving problems with Cloud Computing Platforms by Vercel
  - Independently working and reviewing code qualification with mentoring Junior

About Fee (Personal Portfolio) - Main Developer
Project: Personal Portfolio as main developer   *3.Feb- 16.Feb(2023)*
- **Description:** A Portfolio about myself that can synchronize datas from Github, and some basic methods such as get, post, update, delete
- **Technologies:**
  - Original languages for project: Typescript, HTML, CSS
  - Original Framework for Front-end project: NextJS
  - Original Webpack and Library: Babel plugin module resolver, ReactJS, Nodejs/Express

EDUCATION

Danang University of Science and Technology (VietNam) 10/2020 (*Currently*)
- Major in Electronics and Telecommunication (Advanced Program)

PASTIMES AND ACTIVITIES

- My programming passion and hard work that made some Young Informatics Awards to me when I was in high school
- Exciting about programming since my years of high school as long as the learned and sharing the passion that made me actively enjoy in school groups as well as outside of school much like Da Nang Coders.Tokyo 2018, computer science clubs in school such as university…
- In my free time, I also work on some pet projects. That can be found on my Portfolio https://about-fee.vercel.app/about or Github profile https://github.com/FeeinCof
